ESPO Consultancy Services

ESPO_664_21

Run by: [ESPO](#)

Summary: ESPO's Consultancy Services framework is designed to create a simple and efficient solution for those looking to procure trustworthy advice from pre-approved suppliers.

How it works: Customers need to be registered as a supplier with ESPO. This is a simple process which involves engaging with ESPO and signing the access agreement. Buyers choose the competition route appropriate to their needs.

Competition: The customer has two methods of access that will result in a contract with their chosen service provider; direct award or further competition. Lot 10 – Strategic Projects is purely further competition.

Bloom

Run by: [Bloom](#)

Summary: NEPRO is a fully OJEU compliant procurement offering that is auditable at every step, from business case, to approvals, to supplier performance.

How it works: Bloom manage the overall process, receive payment from the client, and pay us once delivery is evidenced (usually through the sign off of a monthly highlight report).

Competition: Buyers can choose to run a mini competition, or appoint a specific supplier. Bloom shortlist and select potential suppliers in conjunction with the client so we won't see all the opportunities coming through this route.

Pricing: NEPRO take 5% fee from the total charged to the client which needs to be reflected in an uplift of the rate charged to clients.
